

CYRUS JOHN ABAN MACHETE

📍 Valenzuela City, Philippines • 📞 +63 906 083 4195 • 📧 cyrusjohn16@gmail.com

PROFESSIONAL SUMMARY:

Full Stack Developer with experience developing websites, web applications, and eCommerce solutions. Experienced in React.js, Node.js, Java, Shopify, WordPress, Elementor, WooCommerce, and Shopify Liquid, with hands-on experience building custom websites, dropshipping stores, landing pages, and interactive web experiences using GSAP. Skilled in API integrations, GoHighLevel (GHL), Zapier automation, and Kajabi, as well as AWS cloud environments and CI/CD workflows. Comfortable working across both frontend and backend development, with a strong focus on building responsive, user-friendly, and reliable solutions.

SKILLS:

- **Languages:** Java, JavaScript, HTML5, CSS3
- **Front-End Development:** React.js, GSAP, JavaScript, Responsive Web Design, UI/UX Implementation, CSS Animations
- **CMS & eCommerce:** Shopify, Shopify Liquid, WordPress, Elementor, WooCommerce, Odoo, Custom Theme Development
- **eCommerce Development:** Dropshipping Store Development, Product & Collection Setup, Custom Product Pages, Shopping Cart & Checkout Customization, Payment & Third-Party Integrations
- **Back-End Development:** Node.js, Express.js, Java EE
- **Databases:** MySQL, MS SQL Server, MS Access
- **Automation & Integrations:** GoHighLevel (GHL), Zapier, Kajabi, REST API Integration, Third-Party API Integration, Workflow Automation
- **Cloud/DevOps:** AWS (EC2, RDS), GitHub Actions, CI/CD, Edge Cloud (PaaS/IaaS), Hybrid Deployment
- **Tools:** Git, Jira, Laragon, VS Code, IntelliJ IDEA, JBoss
- **Optimization:** SEO Optimization, Performance Optimization, Cross-Browser Compatibility
- **Other:** Custom Website Development, Landing Page Development, Interactive Web Experiences, Website Maintenance

WORK HISTORY:

- **WeDo BPO**
IT Intern (2015)
 - Data Networking
 - Provided IT support for internal users, troubleshooting software, hardware, and network-related issues.
 - Assisted in maintaining and updating internal systems and software.
 - Helped ensure data integrity, performing backups and helping with database queries.

- **Rockfort Documentation Services**

- IT Intern (2015)

- Designed and developed a fully functional, responsive website using WordPress CMS
 - Ensured website accessibility, compliance with web standards, and optimized user navigation.

- **MegaKarte SmartCard Corporation**

- IT Programmer (March 2016 – April 2021)

- Design, develop, and deploy scalable Java EE applications using JBoss Application Server.
 - Asset Tracking System enabling real-time tracking and management of organizational assets.
 - Loyalty System supporting customer retention through point-based rewards and redemption workflows.
 - Sales Performance System delivering dashboards and reports for sales data analytics and performance evaluation.
 - Barangay Registration System digitizing community data management for local government units.
 - Event Check-in System enabling efficient attendee validation and real-time tracking for events.
 - Integrate applications with front-end systems and third-party APIs for seamless data flow.
 - Optimize system performance and ensure high availability using JBoss features like clustering and connection pooling.

- **ELI Information Technology Solutions**

- Software/Web Developer (April 2022 – March 2025)

- Led a team of 4+ developers, ensuring 100% on-time delivery of key projects through Agile sprints and Jira task tracking.
 - Conducted regular team meetings and used Jira for task tracking, sprint planning, and issue resolution.
 - Designed and implemented a hybrid cloud infrastructure, connecting local databases with cloud-based databases for seamless data synchronization.
 - Develop and maintain scalable web applications using React.js for the front-end and Node.js for the back-end.
 - Design and implement RESTful APIs and integrate them with front-end components.
 - Ensure cross-platform and cross-browser compatibility of applications.
 - Collaborate with UI/UX designers to translate wireframes and mockups into responsive interfaces.

- Manage databases MySQL using Laragon and perform CRUD operations efficiently.
- Use version control tools like Git for code collaboration and deployment workflows.
- Deployed multiple projects on AWS and Edge Cloud using PaaS (Platform as a Service) and IaaS (Infrastructure as a Service) solutions.
- Participate in code reviews, sprint planning, and Agile ceremonies.
- Implemented CI/CD pipelines to automate deployment processes and improve efficiency.
- Designed and developed booking and appointment websites using Odoo and WordPress.
- Integrated PayMongo payment gateway with WordPress websites for seamless transactions.
- Utilized JIRA for task tracking, sprint planning, and issue management.
- Configured GitHub Actions Pipelines for smooth code integration.

EDUCATION:

TERTIARY

Bachelor of Science in Information Technology

AMA Computer Learning Center, Meycauayan, Bulacan – *Graduated 2015*

SECONDARY

Emmaus Christian School Inc.

Malanday, Valenzuela City – *Graduated 2012*

PRIMARY

Paltok Elementary School

Viente Reales, Valenzuela City
